

HAILEMARIAM AGABZIE HAILU

FULL-STACK ENGINEER | Web, App

 haileag8@gmail.com |  [+251900439121](tel:+251900439121) |  [Portfolio](#) |  [GitHub](#) |  [LinkedIn](#) |  [Telegram](#)

PROFESSIONAL SUMMARY

Full-Stack Engineer with 3+ years of hands-on experience in software development, designing, developing, testing, and deploying production web applications, RESTful APIs, and software platforms. Proficient in TypeScript, JavaScript, Node.js, Express.js, React, Next.js, MySQL, PostgreSQL, REST APIs, authentication, RBAC, database design, and responsive UI development. Experienced in building enterprise operational systems, EdTech platforms, internship systems, AI-enabled applications, and internal knowledge platforms. Additional experience with Docker, AWS, WebSockets, GraphQL, Python, React Native, Flutter, Flask, and AI API integration.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, C++, Dart, SQL

Frontend: React, Next.js, React Native, Flutter, Tailwind CSS, Zustand, Framer Motion, Responsive UI, Accessible UI/UX

Backend & APIs: Node.js, Express.js, RESTful APIs, WebSockets, GraphQL, Flask, Prisma ORM, Sequelize ORM, Authentication, RBAC, OAuth 2.0, JWT, Session Management

Databases & Cloud: MySQL, PostgreSQL, Cloudinary, Docker, AWS, Vercel, GitHub Actions, CI/CD, cPanel, Yegara Host

AI & Data: OpenAI API, Gemini AI, scikit-learn, NumPy, Pandas, Data Analytics, Data Visualization

Tools & Practices: Git, Figma, Postman, SEO, Core Web Vitals, API Development, Database Architecture, Software Architecture, Agile Development, OWASP Standards

PROFESSIONAL EXPERIENCE

Full-Stack Engineer | Ethiopian Optometric Association | Sep 2025 – Present | Ethiopia

- Architected and deployed the official full-stack web platform supporting digital operations, administrative management, and member services across Ethiopia.
- Engineered secure role-based access control (RBAC) authentication using JWT and OAuth, with automated digital credentialing, PDF generation, and QR-code verification.
- Designed and optimized MySQL database architecture with Sequelize ORM and integrated Cloudinary for asset storage and automated cloud backups.
- Developed production web features spanning frontend interfaces, backend services, database workflows, authentication, and document generation.

Project Team Lead, Web Developer & UI/UX Designer | BiTech Incubation Center | May 2025 – Jul 2026 | Bahir Dar, Ethiopia

- Led a multidisciplinary engineering and design team delivering software products for incubated technology startups.
- Directed UI/UX prototyping in Figma and full-stack web development across multiple concurrent projects.
- Facilitated stakeholder planning, sprint retrospectives, and technical architecture reviews to coordinate product and engineering delivery.

Frontend & SEO Developer / Full-Stack Intern | Askuala Link | Jul 2025 – Mar 2026 | Ethiopia

- Engineered responsive frontend interfaces and implemented SEO practices including metadata, indexing, OpenGraph, and Core Web Vitals optimization for the public portal.
- Architected Askuala Wiki, an internal knowledge platform using React 19, Tailwind CSS v4, Zustand, Node.js, Express, MySQL, Sequelize, and Cloudinary.
- Received a special commendation from the Founder & CEO for technical contributions and innovation.

Backend Developer Intern | Alyah Software | Jun 2025 – Aug 2025 | Ethiopia

- Built backend services and RESTful API infrastructure for Hintern Bridge, an internship-matching platform connecting university students with technology companies.
- Developed scalable APIs, database models, and candidate-matching logic for student applications and recruiter workflows.

Co-Founder & CTO | Code Biruh | 2024 – 2025 | Ethiopia

- Directed technical strategy, client web development projects, and curriculum design for developer training programs.
- Trained aspiring developers in programming fundamentals while delivering custom web solutions for local businesses and organizations.

Web Development Intern | Oasis Infobyte | Feb 2025 – Mar 2025 | Remote, India

- Developed web applications addressing client requirements in an agile, remote development environment.

Web Development Intern | XAI | Dec 2024 – Jan 2025 | Remote, Morocco

- Contributed to frontend and backend web features for international clients with a focus on performance and production-quality delivery.

SELECTED PROJECTS

Ethiopian Optometric Association Platform |

- Enterprise full-stack operational system with role-based dashboards, membership management, payment audit workflows, automated PDF issuance, and QR-based identity authentication.
- Stack: React, Node.js, Express.js, MySQL, Sequelize, JWT, Cloudinary, PDFKit, QRCode, Tailwind CSS.

Askuala Link Official Platform |

- AI-powered smart school system, collaborating with the development team to build and refine a high-performance, responsive experience. Implemented dynamic content experiences, modern UI improvements, SEO enhancements, and performance optimizations to deliver a polished, production-ready platform across devices.
- Stack: React, Next.js, Tailwind CSS, JavaScript, SEO (Meta/OpenGraph), Core Web Vitals, REST APIs.

AlphaX EdTech & Interactive Coding Platform |

- Bilingual Amharic/English learning platform for C++ and web fundamentals with interactive lessons, placement tests, browser-based g++ compiler, AI tutor, WebSockets, and Chapa payment integration.
- Stack: Next.js, React, TypeScript, Node.js, Express.js, MySQL, WebSockets, Gemini AI, OpenAI, g++ compiler, Chapa Pay.

Tenashi AI Health Monitor |

- AI-driven monitoring application using IsolationForest anomaly detection, real-time metrics processing, data visualization, and containerized services.
- Stack: React, Vite, Chart.js, Python, Flask, scikit-learn, NumPy, Pandas, Docker.

Askuala Wiki |

- High-performance internal knowledge platform built with React 19, Zustand, Node.js REST APIs, MySQL, Sequelize, Cloudinary, and Tailwind CSS v4.

EDUCATION

Bachelor of Science in Information Systems | Bahir Dar Institute of Technology (BiT), Bahir Dar University | 2022 - 2026

- Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, C++, Java, C#, Python, JavaScript, Machine Learning, Mobile App Development, Operating Systems.
- Recognition: Top 3 Internship Project of 2025; 3rd Place, BiT AI Hackathon.

CERTIFICATIONS & RECOGNITION

- PLP Software Development Scholarship — Power Learn Project
- Backend Bootcamp Engineer Certification — IS HUB, Addis Ababa University
- Fundamentals of Web Development Certification — Udacity
- English Language & Professional Communication Trainee — ELIC, BiT
- Top 10 Finalist — Innovation for Peace 2025
- 3rd Place Winner — BiT AI Hackathon

LEADERSHIP & COMMUNITY

- **Founder & Community Lead**, Meta Codz (BiT), Jun 2025 – Jun 2026 — Founded and led a student technology community; organized workshops, guest lectures, expert interviews, and project showcases for 100+ student developers.
- **Hackathon Organizer**, Cursor Hackathon, Oct – Nov 2025 — Co-organized an international-scale hackathon, coordinating logistics, mentorship, jury evaluation criteria, university leadership relations, and industry partnerships.
- **Web Development Mentor**, Eshet Academy, Mar – May 2025 — Mentored high school students through a 3-month coding bootcamp and guided teams building real-world applications.

Language

- Amharic (Native)
- English (Professional Working Proficiency)
